👤 PROFILE

Hi there! 👋. I'm an Argentinian software developer with over 6 years of experience, passionate about programming and computer science in general.

Currently, I work as a Technical Leader primarily using Laravel, PHP, NodeJS, Typescript, React, and Redux, in addition to supporting the rest of the team in Architecture and project estimations.

In parallel, I participate in the hiring process for new developers by conducting technical interviews.

I enjoy constantly researching new technologies and methodologies to improve the quality of my work and my professional profile. I have solid knowledge in algorithmics, object-oriented programming, REST API development, and architecture. Among my skills, I highlight my communication abilities, intellectual curiosity, fast learning capacity, and passion for solving problems with software.

📁 EMPLOYMENT HISTORY
